Principal's message

As the Principal of the school, I feel honoured and privileged to be part of an educational institution where every stakeholder is a learner and every day is an opportunity to learn and discover. We look at ourselves as a community of learners, where everyone learns including our teachers, parents & staff.

Happy to announce that our school is publishing the E-Newletter of primary section. All the students have contributed their creative work during this pandemic situation.

I congratulate to all the Primary Teachers for their concerns about the student. My Best wishes with you all.

**D K GUPTA
PRINCIPAL**

Message

"See the positive side, the potential and make an effort" said Dalai Lama. The best way to find out whether a child is ready to participate is to start off slow and go with them. I am ecstatic to see the little children of KV ONGC Chandkheda with the guidance of their role model, their teachers are just as much a bull's eye for the satisfaction, thrill, feeling and benefit of contribution to this CMP newsletter.

Once you learn to read, you will be forever free. So, read, sound your views and appreciate the work of the tiny tots.

I sincerely thank the stake holders for their dedication and commitment towards the contribution for the newsletter.

HM's message

It is a great pleasure and moment of honour to take out the e newsletter for the year 2020-21. I on behalf of Principal and staff members would like to congratulate firstly the students, editorial team above all parents who had been a supporting factor at the time of Lockdown providing a bridge between the teachers and their wards. Dear Students year 2020 has proved a challenging year for all of us. Time has witnessed that if you are constructive in your ways and activities no destructive activity will come near you.

SUSHMITA MAHANTY
HM

Editor's message

Education plays an important role in enabling a person to face a real life situation with adequate knowledge.

At the primary level, we have made all-out efforts to replace textbook learning with a combination of an engaging and joyful blend of activity-based learning, do-it-yourself (DIY) and learn projects, building self-reliance capabilities in our students along with textbooks and use of collaborative technology tools. Our students have depicted numerous ways of creative learning during lockdown and continue to succeed in it.

As the famous saying goes, Success comes to those who work hard and stays with those, who don't rest on the laurels of the past. We march our children ahead with such Kendriya Vidyalaya Sangathan ethos, moral values and principles.

Please enjoy reading our Newsletter as I part by extending my heartfelt gratitude to our Principal Sir Mr. D K Gupta and HM for their unflinching support and motivation all along and for entrusting me with the responsibility of being a part of the Editorial board of this newsletter.

I wish all our readers the best of health and thank the Primary section contributors for sharing creative submissions from the lockdown.

This note would be incomplete without acknowledging the efforts of all my fellow colleagues for their untiring efforts and hard work in playing a pivotal role in the development of our children during such unprecedented times.

God
 God is in the flowers
 God is in the trees
 God is in the butterflies
 And the birds and bees
 God is in the sunshine
 God is in the storm
 God is in the snow frost
 That makes you wrap up warm
 God is in the good
 God is in the bad
 God is what makes you happy
 And what makes you sad
 God is everywhere you look
 And everywhere you go
 God is your best friend always
 Because God loves you so.

Friends

Friends come in all colours
 And sizes and shapes
 Friends share their grapes
 They like the same jokes
 And they like the same shows
 They lend you their ear
 And they lend you their clothes
 A world without friends
 I don't think I could bear it
 Life is much better
 With good friends to share it

Our Friend
 Television

Let it be any reason,
 We watch television.
 It is a means of communication,
 For old as well as new generation.
 It shows us how the world moves,
 When we watch reports in the news.
 In many ways it entertains,
 By showing us movies, songs and games.
 With time it hasn't remained old and fat,
 Now it has become smart, sleek and flat.
 It is now part of our life, for every above reason,
 That's why, like a friend, we love television.

मेरी प्यारी मम्मी, मैं तुम्हें बहुत प्यार करता हूँ।

मेरी मम्मी हैं बहुत प्यारी,
रखती ध्यान मेरा हर पल,
प्यार से करती हैं डाँट लगाती,
मेरे कदमों को धुने लगाती,
खाना पहले डुमके खिलाती,
बाप से कदम खींचती,
मैं तुम्हें प्यार करता हूँ मम्मी जी,
मैं तुम्हें प्यार करता हूँ मम्मी जी।

तुम्हें प्यार करता हूँ मम्मी जी,
मेरी खुशी में खूब हो जाओगी,
दुःख में मेरे आँसू बहाओगी,

कच्चा हूँ तो बनता अचार,

Savers Of Nature (BIRDS)

Birds are the beautiful living things on the earth. They can be found all over the world. But, they don't live for long time, They are dying by radiation signal of cellular towers. In future no one can see any bird. In older days people used birds to send messages and letters from one place to another. They were trained to go from one place to another. They can find their way without any help. Birds migrate from one place to another place around the world. Birds have an impressive ability to navigate to visit the places, that they may never have visited before.
